WE ARE STRIVING FOR A WORLD WHERE EVERY LAW, SOCIAL OR ECONOMIC PRACTICE DESIGNED TO KEEP ANY SEGMENT OF THE POPULATION DOWN IS REMOVED.

AMSHeR provides a platform for exchange, learning, and advocacy among grassroots MSM organizations, human rights organizations, national agencies, and other stakeholders working with and/or for MSM/LGBT communities in Africa.
We want to wake people up to the fact that Gender is not as binary as you think. Men aren’t just attracted to women. Women aren’t just attracted to men. Heterosexuality is only one of many sexual identities. And sex work is, just what it says – work.

And no man-made laws can make it otherwise.

We are not asking for a moon on a stick. We are advocating for simple things that we believe that everyone should have. Like freedom from violence and discrimination. In the courts. In the hospital and clinic. In school. In the workplace. And in that place where we are supposed to feel most safe. The home.

We also believe everyone should have bodily autonomy. Which basically means that it should be up to you what happens to your own body. At all times.

We are striving for a world where every law, social or economic practice designed to keep any segment of the population down is removed. And we recognise the need to work with others to do so. Because if someone is discriminated against. It is often not on one thing alone. BECAUSE WE ARE NOT ONE THING ALONE...

... THAT'S WHY THE ONLY WAY FORWARD IS HUMAN RIGHTS FOR ALL.
